Dear friends,

The Stars Foundation™ is honored to have the privilege of hosting the First Ladies from 10 African countries. Additionally, non-profit and corporate CEOs from the USA, Canada, England, and Europe will be in attendance. Our fundraisers are designed to solicit support while providing international awareness, focused on our Peace Initiatives and Orphan and Vulnerable Children programs. We are the facilitating organization of World Orphans Day™, which is recognized on the second Monday in November in more than 150 countries.

As Nashville welcomes the World, we are excited to announce that 2 stars from the country music industry will receive the Heroes of Humanity Award due to their support for helping the foundation during its infancy. Internationally renown fashion designer Manuel Cuevas will be presented a 'Lifetime Achievement Award'. Honorees Head Tables seating arrangement will be a featured fundraising component auctioned off for the participating charities.

Lifetime Experiences will be auctioned off live at the Gala Dinner, and numerous donated celebrity items including Dolly Parton and Vince Gill signed guitars along with signed memorabilia from Sports icons, Hollywood and Country Music Superstars will be placed around the ballroom for the silent auction.

Many children will be blessed by the donations of the elite and VIP guests attending, as well as the "Live to Air" online charity auction through Charity Buzz that will benefit The Stars Foundation's beneficiaries.

If you received this package, you have the power to make a huge difference in the life of a child.
