Out of the 21.3 million refugees worldwide, half are under age 18.

Every 2 SECONDS a child becomes an orphan.

There are over 130,000,000 orphans in the world.

2,102,400 more children become orphans every year in Africa alone.

There are over 130,000,000 orphans in the world.
**Our Mission**

**KEY BELIEF #1**
Our purpose is to provide resources of sustainable living modalities, medicine, nutrition, clean water and spiritual growth for the orphans and displaced children of the world.

**KEY BELIEF #2**
Nothing can ever fully replace the loving care of an actual parent; however, when tragic circumstances prevail, community based orphan care programs are a top priority.

**KEY BELIEF #3**
We have created this Summit to provide solutions to help solve the global issues for orphans. Children are in need of not only love and care, but the physical needs of clean water, food, housing and education. The Summit provides an opportunity to disseminate information that provides resources through relationship building to bring cutting-edge technologies to third world countries. By implementing the strategies presented at The World Orphans Summit, you will be a catalyst to help solve the world orphans’ care issue.
The Problem

The bleak, haunting eyes of the children express it all. Hunger is rampant throughout the world. Seventy percent of the 130,000,000 orphans claim hunger as the number one problem they face. The African continent is plagued by AIDS, war and famine, leaving millions homeless and starving. If you are reading this, you have the power to make a difference.

The Caribbean, Central America, and South America are devastated by the millions of street children, living on the streets, panhandling for their food. Some as young as five roam the streets in search of the next meal from a trash can. Some make mud cakes to eat in the poorest of poor countries. It is heart-wrenching to watch and devastating to do nothing.

Many young people, children even, have been lured into the sexual human trafficking world out of hunger and a need to sleep under shelter. This is the most horrendous injustice and oppression of our time! Slavery, of the young, the helpless, the hungry, and the naïvete has to be stopped and we are serving as a voice to the silent by advocating for them in parliaments and airwaves around the world.

Together, we are building wealth and a solid future for these children beyond measure. All it takes is your time and conscious efforts. These are precious humans who hurt and who need love. We have special programs and incentives that fulfill these needs and bring to light the solutions to resolve the real problem. We know we have succeeded when everyone on earth feels love and inspiration to create from their true purpose.
