INTERNATIONAL  
DAY OF PEACE

Hosted by  THE  
*Stars*  
FOUNDATION

SEPTEMBER 17, 2021

# International Day of Peace Reception

UNITED NATIONS | New York City, New York

*The Stars Foundation*<sup>™</sup>, based out of Nashville, TN is an entertainment industry organization comprised of celebrities, and people of influence, who desire to make an impact in the world through advocacy and funding of children and orphans worldwide. We facilitate our flagship event, World Orphans Day<sup>™</sup>, held on the second Monday in November each year, to bring global awareness to the plight of children left behind by diseases, natural disasters, wars, poverty and hunger.

## World Orphans Day Press Event

ADVOCATES FOR ORPHANS, DISPLACED CHILDREN, PEACE, LOVE AND UNITY

## Hosted by

*The Stars Foundation*<sup>™</sup> and affiliate partners will host the International Day of Peace Reception and a World Orphans Day announcement, which will provide a once in a lifetime opportunity to strengthen the relationships of dignitaries to show a strong position of unity, love and peace to the world.

You have the power to prompt massive healing by attending, sharing your declaration of statement on unity among nations and faith based organizations to work together to solve some of the many problems plaguing our nations.

Working with the United Kingdom, Kingdom of Eswatini, Republic of Malawi, Liberia, Sudan, Ethiopia, and Trinidad, we are collectively showing a massive joint effort in spreading a message of hope and unity in the world.

**Love in Action and Strategic Planning  
Provide the Platform for Changes**

## SYNOPSIS:

The International Day of Peace Reception held at the United Nations, NYC on September 17, creates the perfect timing for the press event of World Orphans Day, which is November 8, 2021. The Stars Foundation™, and its celebrity supporters have focused on creating a World Orphans Day Theme Song, recorded by legendary superstar Dolly Parton. We will be extending invitations to artists for a second version of the song, bringing various stars in the music industry together for the chorus and music video cameos.

Our mission of advancing the stewardship and care of orphans around the world by improving their quality of life starts with this incredible project designed to raise funds on a supercharged level, anticipating a tremendous amount of global publicity. The Global Alliance for Orphans, group of world changing non-profit partners at this event convened by The Stars Foundation, will

announce to the international press ***Dolly Parton has been selected to receive the 2021 Flame of Peace Award, for her historic Lean on Me Song Project.***

The bleak, haunting eyes of the children express it all. Hunger is rampant throughout the world. Seventy percent of the 143,000,000 orphans claim hunger as the number one problem they face. The world is plagued by AIDS, coronavirus and famine, leaving millions homeless and starving. If you are reading this, you have the power to make a difference!

## Syndicated International Television Production & Broadcast

*Hearts on Fire Television Series* is being produced for an International television audience, designed to ignite and inspire viewers to participate as advocates for the displaced, orphaned, and street children that are so hurting in our world. The series is infused with celebrities and high profiled public figures and dignitaries, who have passionately assembled in furtherance to the global orphans cause.

On-air guest hosts interview the attendees of all The Stars Foundation events, and focus on each countries journey and mandates, to inspire the young and older generations to reach within themselves to make a difference. Production footage has already been collected for this series including celebrities giving their stories of courage and faith, in the times of tribulation with a message of hope for the viewing audience. There is continual television production coverage at all of The Stars Foundation's events in 2021 to further the Hearts on Fire Television series on going production process.
