Cheryl Robeson-Piggott, founder of The Stars Foundation™, and World Orphans Day™, has been advocating for orphans and disenfranchised children for decades. World Orphans Day™ is proclaimed on Monday, November 14, 2022. World Orphans Day™ is recognized in countries around the world the second Monday in November annually.

The Stars Foundation™ is an entertainment based 501(c)3 organization based out Nashville, Tennessee; dedicated to raising funds and awareness for the plight of children, orphaned or displaced by poverty, war, AIDS, and natural disasters. We raise money to help the orphans with food, medicines, shelter and contribute to other organizations.

We are comprised of entertainment executives and celebrity ambassadors desiring to impact the world for the most vulnerable children, namely orphans and street children. The Stars Foundation has successfully distributed over \$115,000,000 in goods-in-kind for charities around the world.

The Stars Foundation makes traditional media value donations to other partnering organizations which support orphan and disenfranchised youth. We provide the non profits with the media and public awareness that is necessary to fuel their mission in supporting disenfranchised children, and at risk youth. By combining heavy programming with television and radio , intermixed with Star power, The Stars Foundation brings a strong advocacy organization to causes championing the humanitarian rights of children.

# Welcome

Dear World Changer,

We have set the Global philanthropic stage for this historical event with governmental representatives aligning with the Music Industry Stars, to raise funds for the orphans/oppressed children in crisis today.

As a World Changer, you are giving a voice to concerns of the most impoverished children in the world, and by collaboratively working together we can make a difference. Strategic working relationships can lead to results if there is continual communication and re- connecting to help empower each other's goals in helping the children.

We thank you for stepping up to stand for the rights of oppressed children, so that their lives may be improved. God has a plan for pulling everyone together in UNITY to support the orphans and displaced children.

We are grateful for each and everyone one of you, as it takes courage to walk this path. World Changers and World Leaders take that extra step to walk in faith and be bold. You are taking part of this historic event because of that bravery. Let's together make the world a better place. You have the power to make a difference!

# Our Mission

## KEY BELIEF #1

Our purpose is to provide resources of sustainable living modalities, medicine, nutrition, clean water and spiritual growth for the orphans and displaced children of the world.

## KEY BELIEF #2

Nothing can ever fully replace the loving care of an actual parent; however, when tragic circumstances prevail, community based orphan care programs are a top priority.

## KEY BELIEF #3

We have created this Orphans AID event to provide solutions to help solve the global issues for orphans. Children are in need of not only love and care, but the physical needs of clean water, food, housing and education. The Orphans AID event provides an opportunity to disseminate information that provides resources through relationship building to bring cutting-edge technologies to third world countries. By implementing the strategies presented at The Orphans AID event, you will be a catalyst to help solve the world orphans' care issue.

# The Problem

The bleak, haunting eyes of the children express it all. Hunger is rampant throughout the world. Seventy percent of the 153,000,000 orphans claim hunger as the number one problem they face. The African continent is plagued by AIDS, war and famine, leaving millions homeless and starving. If you are reading this, you have the power to make a difference.

The Caribbean, Central America, and South America are devastated by the millions of street children, living on the streets, panhandling for their food. Some as young as five roam the streets in search of the next meal from a trash can. Some make mud cakes to eat in the poorest of poor countries. It is heart-wrenching to watch and devastating to do nothing.

Many young people, children even, have been lured into the sexual human

trafficking world out of hunger and a need to sleep under shelter. This is the most horrendous injustice and oppression of our time! Slavery, of the young, the helpless, the hungry, and the naïvete has to be stopped and we are serving as a voice to the silent by advocating for them in parliaments and airwaves around the world.

Together, we are building wealth and a solid future for these children beyond measure. All it takes is your time and conscious efforts. These are precious humans who hurt and who need love. We have special programs and incentives that fulfill these needs and bring to light the solutions to resolve the real problem. We know we have succeeded when everyone on earth feels love and inspiration to create from their true purpose.
